COURSE DESCRIPTION: *Server-Side Java*

Learn how to utilize the simplicity and power of Java to make web pages that never get old. Sick of updating sites constantly with simple changes? Java can now make pages automatically looking at information from databases, information tables, and small data files.

Put JSP on your resume! One of the big hot topics! Companies are looking *right now* for anyone proficient in writing “servlets” that can automatically update their site.

The best part is that Sun has done the work for you. All you have to do is learn how to use the tools they’ve given us. This simple course could be the shining star of your CS resume!

Projects will begin with a Java review and then move into implementing the Enterprise Edition Java HTTP Servlet class. Moving into JSP and implementing some JDBC access, students will create active web pages that update themselves.

GRADING POLICY:

- PROJECTS (60%)
- CLASS PARTICIPATION (40%)

GRADING SCALE: Letter grades will be determined by the following scale, where 100 corresponds to the highest point total earned by any student in the class:

Average	Grade
90 - 100	A
80 - 89	B
70 - 79	C
60 - 69	D
0 - 59	F

COURSE POLICIES:

- There will be no make-up examinations. *A student who is unable to attend a major examination due to illness or other emergency is required to contact his instructor within 24 hours of the exam time.* If an exam is missed due to an emergency, the final will be counted twice; once as a final, and once in place of the missed exam. Late homework will not be graded.
- Any preceding policies may be waived at my discretion

For inclement weather updates or other announcements please check your e-mail and the following page regularly: <http://www.wagner.edu/faculty/users/ionescu/notes.htm>
